COMMUNICATIONS ACT 2006

NOTICE CONCERNING EAZI TELECOM'S INTENTION TO CEASE OPERATIONS

It has come to the Gibraltar Regulatory Authority's attention this morning that Eazi Telecom Ltd trading as Limba will be ceasing operations as from 22nd February 2019. Limba has also published this on social media. Limba is advising customers who wish to keep their current number "to go to Gibtelecom directly and request this from them". Whilst this is strictly speaking correct, Limba customers should be aware that telephone numbers currently allocated to Limba, that is 629-XXXXX, may experience difficulties in future in respect of making and receiving calls and SMS messages, as well as operating data services. Whilst porting these numbers to Gibtelecom is technically possible, the GRA would strongly suggest that Limba customers consider all options before taking the decision to port.

Limba customers are therefore advised to contact alternative, authorised operators as soon as possible to limit any disruption to their telecommunications services.

Dated this 15th February 2019

Paul J Canessa
Chief Executive Officer
Gibraltar Regulatory Authority
