## CONDITIONS AND LIMITATIONS

### ESTABLISHMENT AND USE.

1. The Licensee may
  - (a) establish a station or stations for telecommunications formed only of type approved equipment or certified in accordance with Department of Trade and Industry of the United Kingdom ("DTA (UK)") Performance Specifications MPT 1320, MPT 1333 OR MPT 1382 OR European Telecommunications ETS 300 135 and marked on the front panel of such apparatus in accordance with the appropriate specification.
  - (b) use a CB Station for sending and receiving only -
    - (i) messages in plain speech, and
    - (ii) signals of less than one second in length which are intended to call up any other CB Station, to identify a CB Station or to mark the end of a message sent by a CB Station. Any such signals shall be inaudible.

### LIMITATIONS ON USE

#### Apparatus of CB Station

2. The telecommunications apparatus forming a CB Station shall not be used -
  - (a) unless it is operated on the frequencies specified in accordance with sub-clause 1(a);
  - (b) if, at any time, such use -
    - (i) is likely to obstruct the Police, an officer authorised by the Minister for Telecommunications, the City Fire Brigade, any of the emergency services or any other Government body in the carrying out of their duties,
    - (ii) causes harmful interference to any other telecommunications service.

### ANCILLARY EQUIPMENT

3. (1) Except as provided at (2) below, only the following ancillary equipment may be connected between the antenna socket of the transceiver of a CB Station and its antenna -
  - (a) devices approved by the Gibraltar Regulatory Authority (GRA) or the DTI (UK) for suppressing interference;
  - (b) low pass filters;
  - (c) mechanically operated co-axial antenna change over switches.
  - (2) A meter to measure the transmitter output power or Voltage Standing Wave Ratio (VSWR) of the antenna may be temporarily inserted between the antenna socket of the transceiver and the antenna for the sole purpose of establishing a CB Station or testing equipment providing that such meters are removed before a CB Station is used.
4. (1) A CB Station with provision for connection to an external antenna such apparatus shall only be connected to a single vertical omni directional monopole antenna, the driven element of which does not exceed 1.65m in length or 55mm in diameter, including any loading coils and associated circuitry and casings, but excluding any plates or radial wires or rods designed solely to act as a ground plane.
  - (2) If a CB Station is situated within 1km of the airport the height of the antenna and any supporting mast or structure must not exceed 15m.

### OPERATORS OF STATION (S)

5. A CB Station shall only be used by -

- (a) the Licensee whose age at the time of such use or supervision at (b) below exceeds 14 years; or
  - (b) any person where such person's use is under the general supervision of the Licensee.
6. A CB Station -
    - (a) shall not be established or used in any aircraft or other airborne vehicle and shall not be established or used on board ship except with the consent of the ship's master;
    - (b) shall not be used for the purpose of advertising goods or services of any kind.

### CONDITIONS OF THE LICENCE

7. Where the Minister exercises his power to revoke or vary all Citizens' Band Radio Licences, a general notice shall be issued to all holders of such licences.
8. The CB Station and this Licence, shall be available for inspection on demand at any reasonable time by a constable or any other person authorised by the Minister.
9. A CB Station shall be closed down at any time on the demand of any person authorised by the Minister.

### INTERPRETATION

10. In this Licence, except where stated otherwise, words and expressions shall have the same meaning as they have under the Part IV of the Telecommunications Ordinance 2000.

#### Notes:

1. It is the responsibility of the Licensee to ensure that no unauthorised use of a CB Station takes place.
2. The CB Station may be used for business and other commercial activities subject to the limitations in sub-clause 6(b) of this Licence.
3. Only equipment, which conforms in all respects to the GRA or DTI (UK) Performance Specifications, may be used. This Licence does not permit the use of equipment which has been modified in any way. In particular Licensees should note that this Licence does not allow use of equipment which has been modified-
  - (a) to allow transmission or reception on other or additional frequencies; or
  - (b) to produce a greater output power.
4. This Licence does not permit -
  - (a) the use of the following equipment;
    - (i) power amplifiers (also known as "linear amplifiers", "burners", "boots" or "assistance"),
    - (ii) antennas other than as specified in Clause 4 of this Licence,
    - (iii) devices designed to encrypt or distort speech,
    - (iv) devices to allow a CB Station to be interconnected with the Public Service Telephone Network,
    - (v) devices to allow a CB Station to be remotely controlled,
    - (vi) repeater stations.
  - (b) the following uses of licensed equipment:-
    - (i) the retransmission of any pre-recorded material,
    - (ii) the retransmission of any broadcast material,
    - (iii) the transmission of music in any form.
5. Only mechanical antenna switches, which do not use radio frequency energy in any way, may be used.
6. When operating a CB Station, every effort shall be made to avoid causing interference to other electronic or electrical apparatus.
